Mon, 18 Jun 2018 18:41:00 GMT - Much of the light in the universe comes from stars, and yet, star formation is still a vexing question in astronomy. To piece together a more complete picture of star birth, astronomers have used the Hubble Space Telescope to look at star formation among galaxies in our own cosmic back yard. The ...

Mon, 18 Jun 2018 04:37:00 GMT - Biography. Edwin Hubble was born to Virginia Lee Hubble (nÃ©e James) (1864â€“1934) and John Powell Hubble, an insurance executive, in Marshfield, Missouri, and moved to Wheaton, Illinois, in 1900. In his younger days, he was noted more for his athletic prowess than his intellectual abilities, although he did earn good grades in every subject except for spelling.

Sun, 17 Jun 2018 19:18:00 GMT - NASA's James Webb Space Telescope sits inside Chamber A at NASA's Johnson Space Center in Houston after having completed its cryogenic testing on Nov. 18, 2017. This marked the telescope's final cryogenic testing, and it ensured the observatory is ready for the frigid, airless environment of space ...

James Webb Space Telescope completes final cryogenic testing -

- Most discoveries take time to make. Even though time seemed to have flown by very rapidly when it came to TRAPPIST-1, the path leading to the discovery of the system took many efforts over nearly a decade.
